

Product Announcement

- 135250 PIPE BRACKET SD POLY FOR 2.5" WITH RUBBER COUPLER
- 135350 PIPE BRACKET SD POLY FOR 3.5" WITH RUBBER COUPLER

Implementation Date: December 1st, 2012

135250 and 135350

Features and Benefits

Introducing EZ Dock's new style Standard Duty (SD) Pipe Brackets (135250 and 135350). These brackets are a one-piece LLDPE bracket and attaches to the dock and port product utilizing our standard rubber coupler sets. The new bracket has a full taper thru-hole for the pipe that will allow more flexibility in movement with changing water levels. T-nut locations have been added to the top to allow for mounting of cleats directly on the bracket.

The new SD Pipe Bracket Kits are currently available, We will continue to maintain a limited quantity of the older style, 130250 & 130350, pipe brackets based upon demand. Shipping weight is 18lbs
