## EZ DOCK LOW PROFILE

158010, 315100, 115740, 115750, 115757, G215360, G215460, G215560

Implementation Date: Sep. 2015

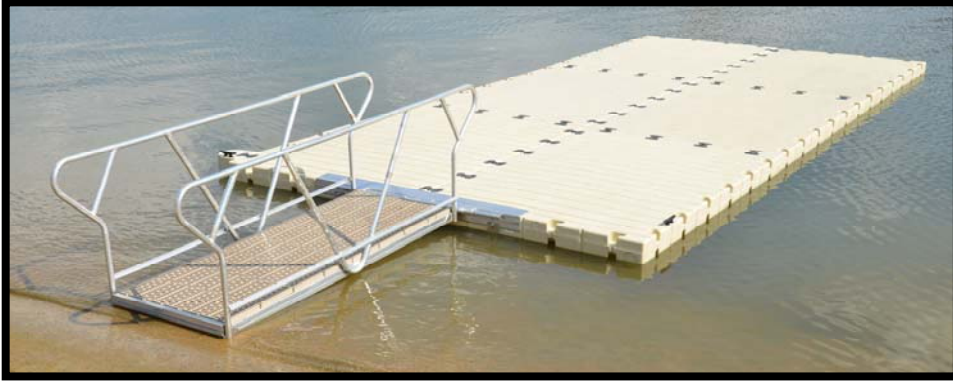

### *Low Profile Dock System*

#### Features and Benefits

Introducing EZ Dock's Low Profile 80" x 120" dock section. The new low profile dock is 8" tall and has a freeboard height of 5-1/2" when unloaded. This meets current rowing association design specs. It will also serve as a great swim platform with the lower freeboard height to aid in boarding the dock from the water. The design utilizes a 4-pocket by 6-pocket set-up with embedded T-Nuts around the perimeter for accessory attachment, identical to our current 80" x 120" standard dock section. Comes complete with 10 pocket fillers.

- Same great look and feel as the standard EZ Dock system.
- Utilizes standard couplers with shorter coupler bolt made of same material as standard coupler bolt to maintain strength and flexibility
- Able to attach to standard EZ Dock product and traditional dock
- Low freeboard height - 5-1/2"
- 1900 lb flotation capacity
- 30 psf live load
- Made in the USA
